SUMMARY

Motivated Computer Science and Engineering student specializing in Artificial Intelligence and Machine Learning with strong skills in Python, Java, and ML libraries. Experienced in developing machine learning solutions for network security. Seeking an internship or entry-level position in AI/ML development or data science.

EDUCATION

Institute of Technical Education and Research (ITER), SOA University

Bachelor of Technology in Computer Science and Engineering (AI & ML)

Expected Graduation: [Month Year]

GPA: [X.XX]

PROJECTS

– Network Intrusion Detection Using Machine Learning

- Developed a machine learning-based system to detect network intrusions and security threats in real-time
- Implemented data preprocessing, feature engineering, and model training using Python with NumPy and Pandas
- Created visualizations using Matplotlib to analyze network traffic patterns and model performance
- Applied classification algorithms to identify malicious network activities with high accuracy

TECHNICAL SKILLS

- **Programming Languages:** Java, Python
- **Machine Learning Libraries:** NumPy, Pandas, Matplotlib, Scikit-learn
- **Technologies:** Oracle Cloud Infrastructure, Data Analysis, Data Visualization

- **Areas of Expertise:** Artificial Intelligence, Machine Learning, Network Security, Cloud Computing

EXPERIENCE

Python Intern

Wizro Infotech Pvt. Ltd.

September 2024 – November 2024

- Completed comprehensive Python programming internship focusing on practical application development
- Gained hands-on experience in Python development, data structures, and algorithm implementation
- Collaborated with team members on multiple Python-based projects and assignments

CERTIFICATIONS

- **Oracle Certified Foundations Associate** – Oracle Cloud Infrastructure 2025 | October 2025
- **Introduction to Artificial Intelligence** – Coursera
- **Python Training Certificate of Appreciation** – Nimble Tech | November 2024
